# Internet Explorer Retirement

**The future of Internet Explorer is in Microsoft Edge.**

Internet Explorer (IE) has been retired and is no longer supported. If any site you visit needs Internet Explorer, you can reload it with IE mode in Microsoft Edge. Select "Continue" to get started with Microsoft Edge, the fast and secure browser built for Windows.

---

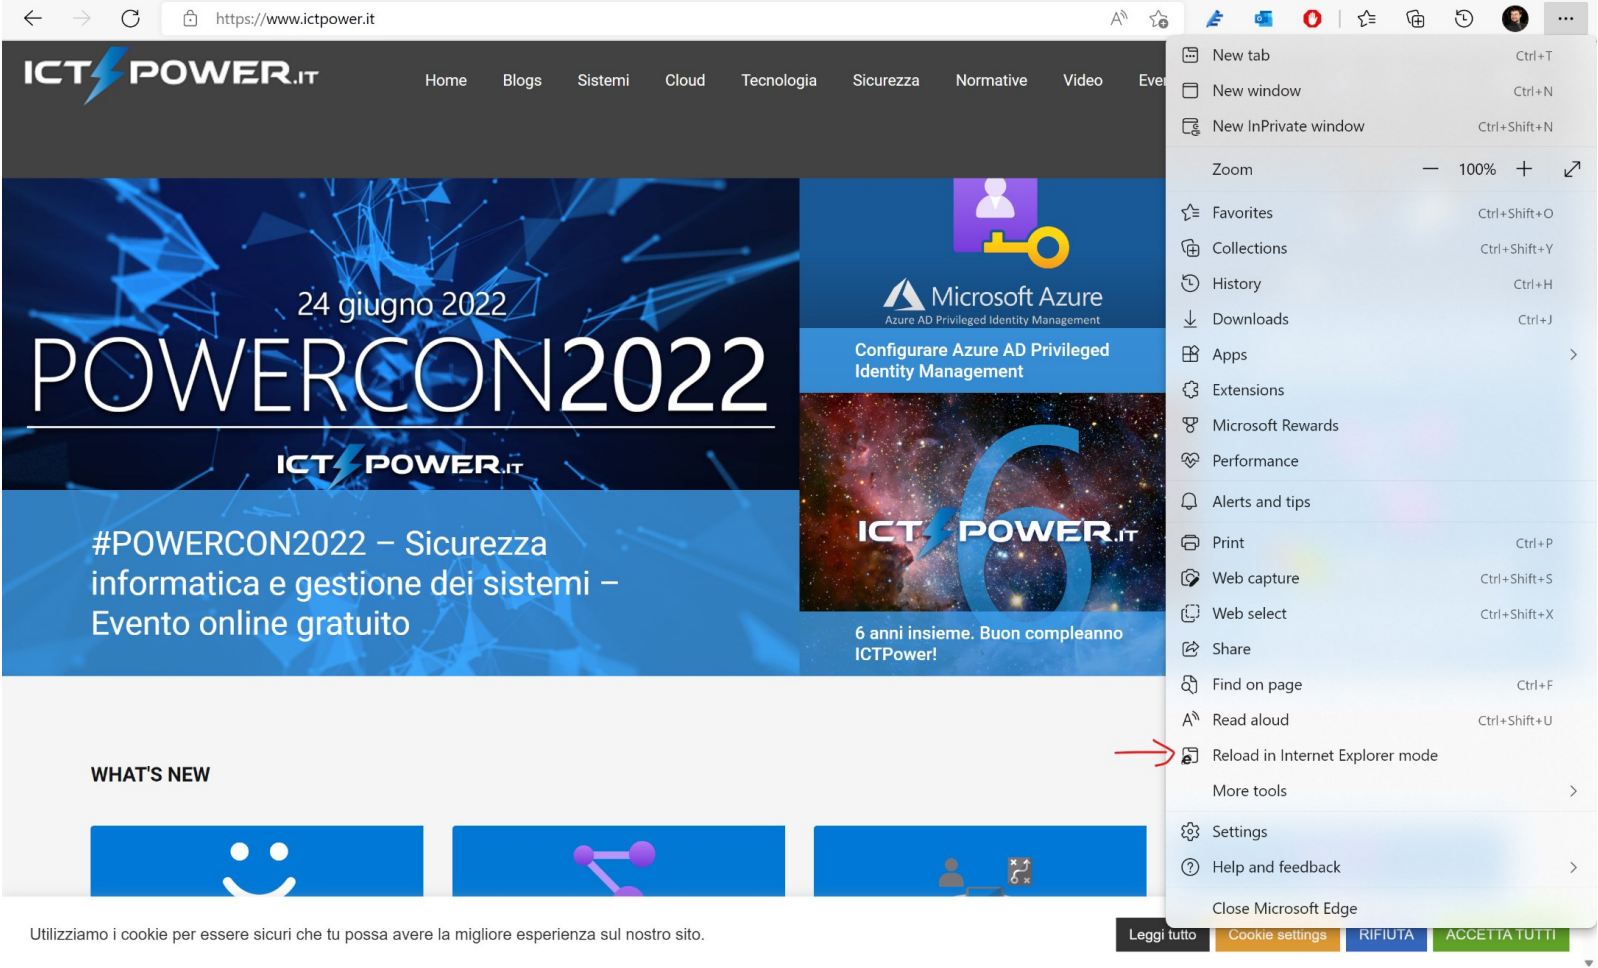

Your favorites, passwords, history, cookies, and other browser data will be automatically brought over to Microsoft Edge so you can seamlessly continue browsing. You can manage this later in Settings on Microsoft Edge.
