#POWERCON2023
Monorepos, a source to rule them all

Lorenzo Pieri
Sr Software Engineer

@404answnotfound

lorenzopieri

Who am I?

```
const name = "Lorenzo Pieri"
const job = "Full Stack Software Engineer @ Birdie"
const conf = "#POWERCON2023"

const sayHello = () => console.log(`Hello ${conf}!`)
// Hello #POWERCON2023!
```
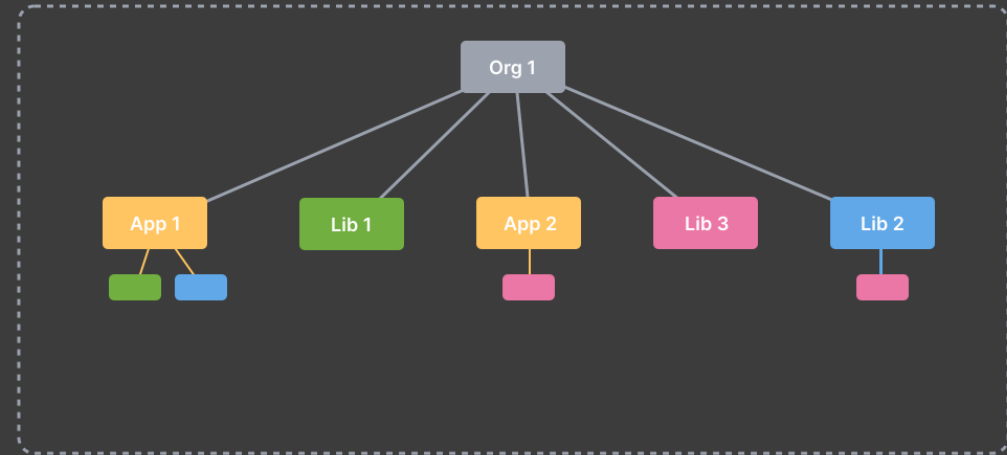

Agenda

- The history of Monorepos
- Trade-offs
- All the tools belong to us
- Case studies
- Live coding!
- Final considerations

The history of Monorepos

A **monorepo** is a single repository containing multiple distinct projects, with well-defined relationships.
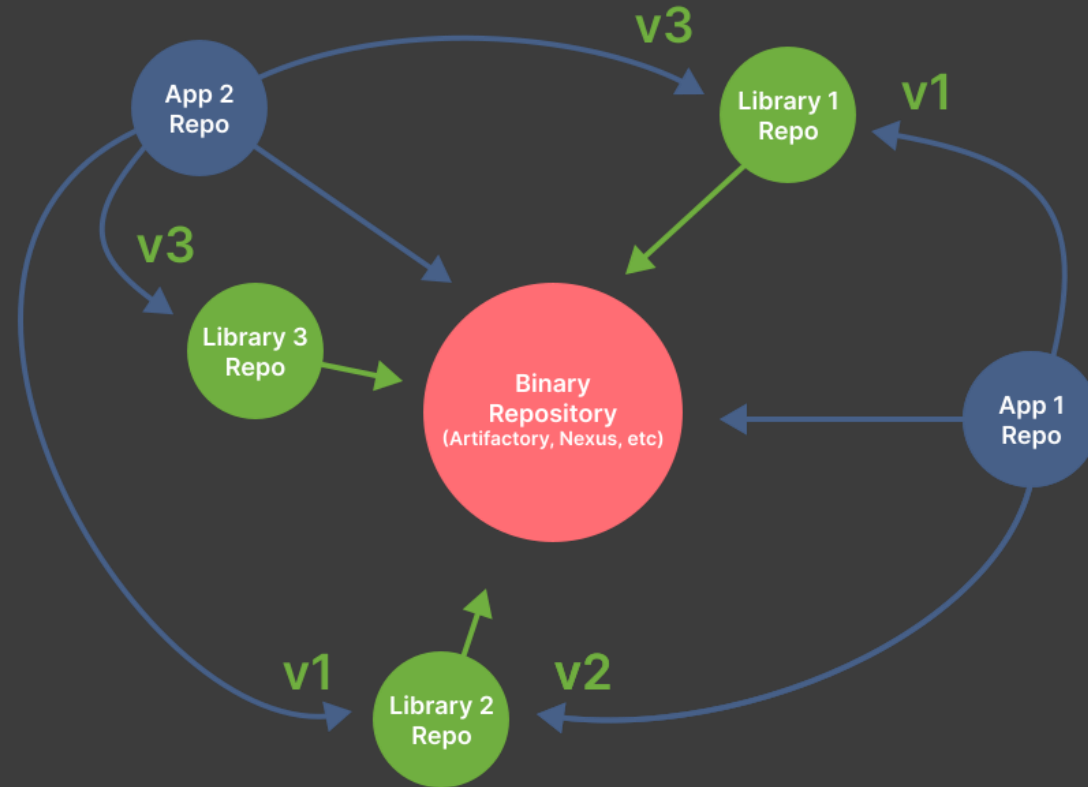

@nrwl

Monorepo

Polyrepo

# Monorepo !== Monolith

The trade-offs

Polyrepo in practice
Depend on Published Artifacts

All the tools belong to us

Case studies

Live coding
